

# **COMPANY SHUTDOWN COVID-19**

Dear Customer,

Concerning the emergency health situation caused by the Covid-19 virus, our company has adopted all the measures prescribed by the Government and Health Authorities aimed at protecting the health of workers and limiting the spread of the virus.

However, despite the absence of internal contagion cases within the company, we consider the safety of workers' health as a priority and we want to guarantee the greatest possible protection.

Therefore, the company will remain closed until March, 22 included.

This decision could result into a delay in deliveries, caused by force majeure. We apologize in advance for any possible inconvenience or delay that may occur, but we believe people's health prevails over all economic considerations.

Finally, we wish to reaffirm our continuous and constant commitment to support our customers in all circumstances.

At this purpose, for any communication and emergencies your usual business contact will be happy to support you.

Kind regards
