

Fixing kit for tanks

With the goal of constantly improving the quality of our products and their alignment to the technical equipment of the current ranges of industrial vehicles, we inform you that the fixing kits of the side oil and diesel tanks “JOLLY P” and “BP” will be suspended and replaced with new fixing kits that have the following advantages:

WAS	WILL BE
	<p>Better coupling tank/fixing kit.</p> 
	<p>Improved support profile to allow a smooth fitting.</p> 
	<p>Self-locking pin instead of screw+nut. Allows a reduction in assembly time.</p> 
	<p>Unified mounting kit for all lengths (version with back recesses no longer required).</p> 

OIL TANKS - range JOLLY P (480x650)		
CURRENT code	Description	New code
135903BPLX0	Fixing kit with stainless steel straps	135903BPLX6
135903BPLX1*		
* version with back recesses no longer required
